## Score

*How did your Friend of Fiber do? Tally up their score to find out!*

**0-5** *Dropped Stitch.* Your friends really should start listening more. Have them buy you a hank of yarn as a consolation.

**6-10** *Darn it.* So close, yet so far. Your friend has much to learn about fiber crafts. They have a good jumping off point though!

**11-15** *Knit/Crochet Worthy.* Your friend has proven themselves to be worth the time and effort of handmade gifts.

**16-20** *Honorary Crafter.* By the power vested in me by crochet and by knit, I now pronounce your friend an honorary crafter.
